0158

Qume offers its customers depot repair and spare parts service for all manufactured products sold. This Memory Products Service and Spares Catalog provides detailed information regarding service and repair policies, training policies, manuals and documentation, and spare parts pricing for the complete line of Qume memory products. The manual is divided into several sections, as described below:

**SECTION 1 SERVICE AND REPAIR POLICY** describes Qume's service policies and service depots.

**SECTION 2 TRAINING POLICY** provides information on the types of classes available to Qume customers.

**SECTION 3 MANUALS AND DOCUMENTATION** provides information on technical manuals, and on all other memory products documentation.

**SECTION 4 SPECIAL TOOLS AND LUBRICANTS** describes some special service aids available to Qume customers.

**SECTION 5 SPARE PARTS PRICE LIST** provides information on unit prices for manuals. Also a list for field replaceable spare parts, are listed in numerical order. The prices shown are effective on the date of publication. Parts availability and pricing are subject to change without notice.

## SECTION 1 SERVICE AND REPAIR POLICY

Qume Service Depots provide both warranty and nonwarranty repairs. This section explains the provisions for Service Depot repairs, and the cost factors.

### WARRANTY REPAIR ITEMS

Pursuant to the terms of its warranty Qume, at its option, will repair or replace any QumeTrak listed if it is found to be defective within the specified warranty period. All items for warranty service must be shipped prepaid to a Qume Service Depot (see the appropriate "Return Procedure" section for details). Qume will pay the shipping costs for returning products repaired or replaced under warranty. Only the complete disk drive units listed in Table 1, or assemblies purchased as spares, may be returned for warranty service.

When an item is received by a Qume Service Depot for warranty repair, the warranty status of the item is verified. If the item is out of warranty, the customer is advised and the transaction is handled on a nonwarranty basis.

**Table 1. Returnable Products**

| <u>Complete Disk Drives</u> | <u>Part No.(s)</u> |
|-----------------------------|--------------------|
| QumeTrak 142                | 53301-XX           |
| QumeTrak 242                | 54100-XX           |
| QumeTrak 542                | 51000-XX           |
| QumeTrak 592                | 53000-XX           |
| QumeTrak 841/842            | 50001-XX           |

### Nondefective Warranty Items

A \$75 minimum testing and handling fee is charged for all warranty repair items that are found to be nondefective. Nondefective warranty items are returned to the customer at customer expense.

### NONWARRANTY REPAIR ITEMS

All nonwarranty items received for repair incur a minimum service charge of \$75 per item. If the repair cost exceeds \$75, the minimum charge does not apply.

The customer must then forward a purchase order number authorizing the work to begin. If Qume does not receive a purchase order or charge authorization

## SERVICE AND REPAIR POLICY

within 15 days or, if the customer advises against the repair, the item or items affected are charged the \$75 minimum service charge and returned to the customer at customer expense.

### Fixed Fee Repair Charges

Customers returning a complete disk drive unit to Qume for nonwarranty repair are charged a fixed fee for the repair service. (Fixed fee charges do not apply to disk drives that have been cannibalized or have experienced catastrophic failure). If a unit cannot be repaired or, if repairs would exceed the price of a new unit, the unit is replaced at the current price for that item.

A list of QumeTrak products eligible for fixed fee repair service is provided in Table 2. The fixed fee charges listed in Table 2 apply only to units returned to a United States Service Depot. (For information on fixed fee charges for items returned to a European repair facility, please contact either Qume GmbH in West Germany or Qume (UK) Ltd. in England).

Fixed fee charges are subject to change without notice.

**Table 2. Fixed Fee Repair Charges for U.S. Service Depot**

| <u>Description</u> | <u>Part Number</u> | <u>Fixed Fee For<br/>Non-Contract<br/>Customers</u> | <u>Fixed Fee For<br/>Contract<br/>Customers</u> |
|--------------------|--------------------|---|---|
| QumeTrak 142       | 53301-XX           | \$ 120.00   | \$ 85.00  |
| QumeTrak 242       | 54100-XX           | 200.00  | 130.00  |
| QumeTrak 542       | 51000-XX           | 135.00  | 135.00  |
| QumeTrak 592       | 53000-XX           | 135.00  | 135.00  |
| QumeTrak 841/842   | 50001-XX           | 185.00  | 185.00  |

### Time and Materials Repair

Items other than the complete disk drive units listed in Table 2 are repaired in the U.S. at \$40/hour for labor, and at list price for material. Parts and assemblies returned to a European Service Depot are repaired at the local prevailing rate for labor and at international list price for material.

### U.S. RETURN PROCEDURE

Qume customers within the United States should follow the procedures outlined in this section when returning items to Qume for repair or replacement. Qume customers outside of the United States should refer to the "INTERNATIONAL RETURN PROCEDURE" section for information.

### **Returning Items to a Service Depot**

Before any item is returned to Qume for repair or replacement, a Material Return Authorization (MRA) must be issued by the receiving depot. MRA numbers are valid for 30 days after issue. If transportation is delayed longer than 30 days, either a new MRA number must be issued or the existing MRA number must be reissued. If the item or assembly to be repaired or returned has a serial number, the serial number must appear on the MRA. To avoid delay in returning items to Qume, proceed as follows:

1. Telephone the Qume Service Depot to obtain a MRA number (see Step 3 for the phone number).
2. Place the MRA number on the outside of the shipping container and on all accompanying documents (i.e., packing list, shipper, failure reports, etc.).
3. Ship material to the U.S. Service Depot location provided below:

Qume West Cost Service Depot  
2323 Industrial Parkway West  
Hayward, CA 94545  
(415) 783-6100  
TWX 910-383-0710

### **Turnaround Time for Service Depot Repairs**

Under normal circumstances, items sent to a U.S. Service Depot are repaired and returned to the customer within 30 days after receipt of a purchase order for charge authorization of the repair.

### **Expedited Service**

A special expedited service is also available, at customer request, for both warranty and nonwarranty repairs. An additional fee of \$50 per item is charged for these repairs. Expedited repairs are returned to the customer within 3 days of their receipt at the West Coast service depot.

### **Returning Items For Credit**

Before any item is returned to Qume for credit, a Credit Material Return Authorization must be issued by Qume facility in San Jose, California. Information on returning an item to Qume is provided below:

1. Obtain a Credit Material Return Authorization by the following Procedures:
  - . Contact Qume California Sales Service for a QMRA number: telephone (408) 942-4000 or TWX 910-338-0232.

## SERVICE AND REPAIR POLICY

2. Place the QMRA number on the outside of the shipping container and on all accompanying documents (i.e. packing list, shipper, failure reports, etc.).
3. Ship material to:

Qume Sales Services  
2350 Qume Drive  
San Jose, CA 95131

## INTERNATIONAL RETURN PROCEDURE

Qume customers outside of the United States should follow the procedures outlined in this section when returning items to Qume for repair or replacement. Qume customers within the United States should follow the procedures outlined in the "U.S. RETURN PROCEDURE" section.

Before any item is returned to Qume for repair, a Material Return Authorization (MRA) must be issued by the receiving depot. MRA numbers are valid for 30 days after issue. If transportation is delayed longer than 30 days, either a new MRA number must be issued or the existing MRA number must be reissued. If the item or assembly to be repaired or returned has a serial number, the serial number must appear on the MRA. To avoid delays in returning items to Qume, one of the two procedures described below should be followed.

### Returning Items to a U.S. Repair Facility

International customers outside of Europe should ship their repair items to the California Service Depot by following the procedure outlined below. European customers should follow the return procedure for "Returning Items to a European Repair Facility."

1. Telex the Qume California Service Depot (TLX #172294) to obtain an MRA number.
2. Complete a Commercial Invoice and a Foreign Shipper's Declaration (see Appendix A). Include all information. The value shown on all documents must be the same as the original value when the item was first shipped.
3. Place the MRA number and the statement "Made in U.S.A." on the outside of the shipping container and on all accompanying documents (i.e. Packing list, shipper, failure reports, Foreign Shipper's Declaration, etc.).
4. Advise your Freight Forwarders regarding U.S. Customs clearance to indicate on the International Airway Bill that shipment is consigned to:

Qume Corporation  
Hayward, CA.  
International Freight Services  
1610 Rollins Road  
Burlingame, CA. 94010  
USA (415) 692-1632

5. Mark all accompanying documents (i.e. Packing list, Commercial Invoice, Foreign Shipper's Declaration) with the following statement:

"Goods originated in the U.S. returned to U.S. for repair."

6. Specify the SFO International Airport in the space provided for Airport of Destination on the International Airway Bill.
7. Ship to the following address:

Qume Corporation Service Depot  
2323 Industrial Parkway West  
Hayward, Ca. 94545  
USA

8. Forward, by mail, an exact copy of all documents that accompanied the shipment to:

Qume Corporation Service Depot  
2323 Industrial Parkway West  
Hayward, Ca. 94545  
USA

### **Returning Items to a European Repair Facility**

European customers should ship their repair items to the nearest European repair facility by following the procedure below. All other international customers should follow the procedure for "Returning Items to a U.S. Repair Facility".

1. Obtain an MRA number, and other information on procedures which may be necessary, by contacting one of the following:
  - . Qume GmbH, telephone (0211) 743016 or TLX 8586478.
  - . Qume (UK) Ltd., telephone (0743) 584646 or TLX 8497069.
2. Place the MRA number on the outside of the shipping container and on all accompanying documents (i.e. packing list, shipper, failure reports, etc).
3. All parts and assemblies returned to European repair facilities for warranty or nonwarranty repair should be sent to one of the following locations:

Qume GmbH  
Eichelstrasse 31  
4000 Dusseldorf 13  
West Germany  
(0211) 743016  
TLX: 8586478

Qume (UK) Ltd.  
Bridgewater Close  
Reading, Berkshire  
England  
(0734) 584646  
TLX: 849706

### Returning Items for Credit

Before any item can be returned to Qume for credit, a Credit Material Return Authorization must be issued by Qume facility in San Jose, California. Information on returning an item is provided below:

1. Obtain a Credit Material Return Authorization by the following procedures:
  - . Contact Qume California Sales Services for a QMRA number: telephone (408) 942-4000 or TWX 910-338-0232.
2. Complete a Commercial Invoice and a Foreign Shipper's Declaration (see Appendix A for sample document). All information must be included. The value shown on all documents must be the same as the original value when the item was first shipped.
3. Place the QMRA number on the outside of the shipping container and on all accompanying documents (i.e. packing list, shipper, failure reports, Foreign Shipper's Declaration, etc.).
4. Ship material to the following address:
5. Advise your Freight Forwarders regarding U.S. customs clearance to indicate on the International Airway Bill that shipment is consigned to the following:

Qume Sales Services  
2350 Qume Drive  
San Jose, CA. 95131

Qume Corporation  
International Freight Services  
1610 Rollins Road  
Burlingame, CA. 94080  
USA  
(415) 692-1632

### U.S. EMERGENCY SPARES SERVICE

Qume's emergency spares service provides a rapid turnaround for critically needed parts orders. This program is an extended feature of Qume's normal spare parts ordering system and should be used only for "machine down" or for other emergency situations. Emergency spares can be ordered from Qume during normal Pacific Coast business hours, Monday through Friday. All emergency spares parts are dispatched to the prescribed carrier within 24 hours (one working day) after the order is received; shipping costs are paid by the customer.

Minimum charge for each emergency spares order is \$100, and emergency spares orders from each customer cannot exceed \$2000 within any 30 day period. A special \$50 handling fee is also charged for each emergency spares order. Discounts do not apply to the program; all parts are charged at the single unit rate.

For emergency spares service in the United States, contact the U.S. Service and Spares Department, at (415) 785-5650. For information on emergency spares service outside of the United States, refer to the "INTERNATIONAL EMERGENCY SPARES SERVICE".

### **Small Parts Order Program**

Emergency spares may also be obtained under Qume's small parts order program. This program is specifically designed for situations where an emergency spares order does not meet the \$100 minimum order requirement for regular emergency spares service.

Under this program, the \$50 handling fee usually charged for emergency spares service is waived. However, a check or money order must be received by the Service and Spares Department before a small parts order can be processed. Each small parts order is shipped within 10 to 15 working days after receipt of a satisfactory check or money order. As with the regular emergency spares service, shipping costs are paid by the customer.

### **INTERNATIONAL EMERGENCY SPARES SERVICE**

Qume's emergency spares service provides a rapid turnaround for critically needed parts orders. This program is an extended feature of Qume's normal spare parts ordering system and should be used only for "machine down" or for other emergency situations.

International customers outside of Europe should contact the U.S. Service and Spares Department in Hayward, California for emergency spares service. For information, telephone the Service and Spares Department during normal Pacific Coast business hours, at (415) 785-5650. A special \$50 handling fee is charged for each emergency spares order placed with the U.S. Service and Spares Department. Shipping costs for emergency spares orders received from the U.S. Service and Spares Department are paid by the customer.

For information on emergency spares service in Europe, please contact the appropriate European depot. All shipping costs are paid by the customer F.O.B. Reading (UK) or F.O.B. Desselndorf, West Germany.

Minimum charge for each emergency spares order is \$100, and emergency spares orders from each customer cannot exceed \$2000 within any 30 day period. Discounts do not apply to the program; all parts are charged at the single unit rate.

## PACKING ITEMS FOR SHIPMENT

Qume shipping containers are designed specifically to allow shipment of the products, without damage, when exposed to normal commercial handling. Non-Qume containers may not protect the equipment adequately during shipping. For this reason, retention of original Qume shipping materials is recommended in case it should become necessary to reship the product.

If shipping damage is detected when a product is returned to Qume, the shipment will not be accepted from the carrier. The shipment will be returned; and the customer must file claim with the carrier for damages.

Products shipped in non-Qume containers and free from shipping damage are repaired and returned to the customer in Qume shipping containers. The customer is invoiced for each container used. Container prices vary with each product.

## **SECTION 2 TRAINING POLICY**

Qume offers its customers two separate training programs for classroom instruction: 1) Regularly scheduled classes, and 2) Custom, or customer site, classes. Section 2 provides information on class scheduling, cost estimates, and student enrollment procedures for instructor oriented training.

Memory products classes cover all QumeTrak disk products.

### **U.S. TRAINING PROCEDURE FOR CLASSROOM INSTRUCTION**

Training procedures for classes conducted within the United States are provided in this section. Additional information on class scheduling and student enrollment procedures can be obtained by contacting Qume's Customer Training Department in Hayward, California, during regular business hours. The telephone number to call for training information is (415) 783-6100.

For information on scheduling classes in Europe, refer to the "EUROPEAN TRAINING PROCEDURE" section.

#### **Regularly Scheduled Classes**

Memory products classes cover all QumeTrak disk products. Regularly scheduled classes are presented at the Depot Service level. The courses, in addition to covering field service level maintenance, include a complete, detailed presentation of all Qume memory products to the component level, with emphasis on electronic theory of operation, troubleshooting, and repair.

Classes are available, on a regularly scheduled basis, at Qume's Customer Training Center. Class duration is two days, and the cost is \$175 per student. Transportation, lodging, meals, and all general expenses incurred by the student, are not included in the course cost and are the responsibility of the student or the student's employer.

#### **Free Student Enrollments**

To provide continuing support to our contract customers, Qume provides a specified number of free student enrollments in regularly scheduled training classes. The number of free enrollments earned is directly related to the number of disk drives that are contractually purchased from Qume. A schedule of free enrollments versus contract quantities is provided in Table 3.

**Table 3. Schedule of free Student Enrollments**

| QumeTrak Units<br>Ordered | Student<br>Enrollment |
|---------------------------|-----------------------|
| 0-499                     | 0                     |
| 500-2499                  | 1                     |
| 2500-4999                 | 2                     |
| More than 4999            | 4                     |

The free enrollment schedule applies only to regularly scheduled classes. It does not apply to custom classes at Qume or at a customer's site.

### **Custom Classes**

Custom classes may be held either at Qume's Customer Training Center, or at any customer site within the United States. Since these classes are designed especially to meet customer's specific training requirements, custom classes can be a highly desirable and cost effective means of meeting a customer's special training needs.

Conditions for custom classes are as follows:

- . Custom or customer site classes are dependent upon Qume instructor availability. Therefore, Qume's Customer Training Department requires 60 to 120 days lead time to schedule and develop custom or customer site classes.
- . The exact content and length of a course is determined by a conference between the customer and Qume's Customer Training Department and is based upon the specific needs of the customer.
- . Class size is limited to twelve (12) students.
- . If classes are to be held at a customer site, all Qume products, tools, test equipment, classroom facilities required to present the classes must be provided by and at the expense of the customer. Qume provides these items for custom classes held at Qume facilities.
- . Qume provides all necessary technical manuals and other required training aids.
- . The cost of custom or customer site classes includes an instructor fee of \$280.00 per day (including travel days, if applicable) plus all transportation, lodging, meals, and other reasonable expenses incurred by the Qume instructor.
- . An estimated customer course cost will be provided to interested customers. A purchase order must be received or other financial arrangements made, prior to course dates.

## EUROPEAN TRAINING PROCEDURE FOR CLASSROOM INSTRUCTION

Information on class scheduling and cost estimates for European training may be obtained by contacting one of the following European Customer Training Departments:

Qume GmbH  
Customer Training Dept.  
Eichelstrasse 31  
4000 Dusseldorf 13  
West Germany  
(0211) 743016  
TLX: 8586478

Qume (UK) Ltd.  
Customer Training Dept.  
Bridgewater Close  
Reading, Berkshire  
England  
(0734) 584646  
TLX: 849706

## SECTION 3 MANUALS AND DOCUMENTAION

### TECHNICAL MANUALS

A technical manual or set of manuals is available for each QumeTrak product manufactured by Qume. Manual sets vary with each product.

When requested, manual sets are provided (at no additional cost to the customer) according to the schedule in Table 4. The number of free manual sets provided is based upon the number of disk drives purchased from Qume under an annual contract. Manual sets are shipped separately from the products.

**Table 4. Schedule of Free Manual Sets**

| Number of QumeTrak Drives<br>Purchased | Number of Free<br>Manual Sets Earned |
|--|--------------------------------------|
| 500-999                                | 5                                    |
| 1,000-2,499                            | 10                                   |
| 2,500-4,999                            | 15                                   |
| 5,000-and over                         | 20                                   |

### Reproduction Rights

A customer may reprint Qume's published manuals, in whole or in part, provided that:

1. The Qume manuals to be reprinted are not marked **Confidential**, or otherwise indicated as being confidential or proprietary in nature.
2. Such reprinted manuals are used solely in connection with the sale or service or lease of systems containing Qume products which were purchased from Qume.

### List of Publications

A list of the technical manuals currently available from Qume is provided in Table 5. Manuals may be purchased separately from the products.

Refer to Section 5 ("SPARE PARTS PRICE LIST") for pricing information on these publications.

Table 5. List of Publications

| <u>Manual No.</u> | <u>Description</u>   |
|-------------------|--|
| 36013             | QumeTrak 542 Product Description: provides information on physical characteristics, performance specifications, and electrical interface requirements and options; strappable options are explained for selection and operation details that may be required by various customer interfaces.   |
| 36017             | QumeTrak 542 Maintenance Manual: provides interface and installation information; describes customer strappable options; provides maintenance information including subassembly removal and replacement procedures, adjustment procedures, and troubleshooting procedures; illustrated parts lists and schematic diagrams are also included. |
| 36023             | QumeTrak 842 Product Description: provides information on performance, physical dimensions, and electrical interface specifications; explains power and environmental requirements, and interface signal actions and interactions; describes the possible strappable options for variations in interface commands structures.                |
| 36027             | QumeTrak 842 Maintenance Manual: provides interface and installation information; describes customer strappable options; provides maintenance information including subassembly removal and replacement procedures, adjustment procedures, and troubleshooting procedures; illustrated parts lists and schematic diagrams are also included. |
| 36033             | QumeTrak 592 Product Description: provides information on physical characteristics, performance specifications, and electrical interface requirements and options; strappable options are explained for selection and operation details that may be required by various customer interfaces.   |
| 36037             | QumeTrak 592 Maintenance Manual: provides interface and installation information; describes customer strappable options; provides maintenance information including subassembly removal and replacement procedures, adjustment procedures, and schematic diagrams are also included.   |
| 36043             | QumeTrak 142 Product Description: provides information on physical characteristics, performance specifications, and electrical interface requirements and options; strappable options are explained for selection and operation details that may be required by various customer interfaces.   |

## CHANGE NOTICES

Qume issues Change Notices, on a monthly basis, for each QumeTrak product manufactured. Change Notices provide the customer with parts information on new products, and with update information on existing products.

Each contract customer receives, without cost, one copy of every Change Notice that applies to the contract product(s) purchased.

## TECHNICAL BULLETINS

When required, Qume issues Technical Bulletins to provide the customer with additional product information. Technical Bulletins may include service tips, training class announcements, information on procedural changes at Qume, or any relevant information of interest to the customer. Publications Technical Bulletins are utilized to announce the release of new or revised publications, and to provide corrections to existing publications.

Each contract customer receives, without cost, one copy of every Technical Bulletin that applies to the contract product(s) purchased.

## SECTION 4 SPECIAL TOOLS, TEST DISKETTES AND LUBRICANTS

The items listed in Tables 6, 7 and 8 are available for purchase from Qume and are for use with the QumeTrak family of disk drive products. Where necessary, specific QumeTrak products are associated with specific items. The descriptions supplied for each item are intended to aid the user in selecting the special tools, test diskettes and lubricants needed to maintain a QumeTrak disk drive in optimum condition.

Refer to Section 5 ("SPARE PARTS PRICE LIST") for pricing information on these items.

**Table 6. Special Tools**

| <u>Part No.</u> | <u>Description</u>                         |
|-----------------|--|
| 53301-G1        | QumeTrak 142, Drive Belt Tension Gauge     |
| 53535-G1        | QumeTrak 142, Media Guides Alignment Gauge |

**Table 7. Test Diskettes**

| <u>Part No.</u> | <u>Description</u>   |
|-----------------|--|
| 50151-01        | Cerfified R/W Disk for the QumeTrak 242, QumeTrak 841/842: Used to verify disk drive read/write performance.                               |
| 50235-02        | Dymek CE Alignment Diskette for the QumeTrak 242, QumeTrak 841/842: Used to check head alignment and to field adjust head/track alignment. |
| 50236-04        | Dysan CE Alignment Diskette for the QumeTrak 242, QumeTrak 841/842: Used to check head alignment and to field adjust head/track alignment. |
| 51200-01        | Certified R/W Disk for the QumeTrak 142, QumeTrak 542: Used to verify disk drive read/Write performance.                                   |
| 51201-01        | Dymek CE Alignment Disk for the QumeTrak 142, QumeTrak 542: Used to check head alignment and to field adjust head/track alignment.         |
| 51208-01        | Dysan CE Alignment Disk for the QumeTrak 142, QumeTrak 542: Used to check head alignment and to field adjust head/track alignment.         |
| 53067-01        | CE Alignment Disk for the QumeTrak 592: Used to check head alignment and to field adjust head/track alignment.                             |

| 85160-01        | Thread Locking Fluid, Loctite "222", 34oz. bottle |
| 86696-01        | Chevron Grease, SRI-2, 2oz. bottle                |

## SECTION 5 SPARE PARTS PRICE LIST

The Spare Parts Price List provided in this section supercedes all previously published price lists. The price list reflects those parts and prices effective on the date of publication. Prices listed are for quantities of one each. Certain items (such as Supplemental Information documents) are supplied to customers without charge. These items are marked N/C on the price list. Items marked N/A indicate part numbers that are no longer available. Replacement part numbers are supplied for these items.

There is a \$100 minimum on all spare parts orders; customers are notified immediately of any price changes that may affect the status of an order. For information on quantity price discounts, contact your Qume Sales Representative. For all other information regarding parts availability and pricing, telephone Qume Sales Services in San Jose, California at (408) 942-4000.

### -NOTE-

Parts availability and pricing are  
subject to change without notice.

### QUME SPARE PARTS PURCHASE AGREEMENT WITH

\_\_\_\_\_  
(HEREINAFTER REFERRED TO AS "BUYER")

\_\_\_\_\_  
ADDRESS

CITY \_\_\_\_\_ STATE OR PROVINCE \_\_\_\_\_ COUNTRY & POSTAL CODE \_\_\_\_\_

This Agreement is entered into as of \_\_\_\_\_, 19\_\_\_\_, between \_\_\_\_\_ (Buyer) and Qume Corporation ("Qume") for the purchase of Qume's recommended spare parts and service tools ("Spares") in accordance with the terms and conditions set forth below.

#### 1. PURCHASE ORDERS.

**1.01 Initial Order.** Upon execution of this Agreement, Buyer will deliver to Qume a written order covering Buyer's initial Spares requirements.

**1.02 Subsequent Orders.** Subsequent purchases of Spares shall be made by delivery to Qume of written purchase orders requesting a delivery date within six (6) months of the date of the order. In order to permit production scheduling, orders must be received by Qume at least ninety (90) days prior to the first day of the requested month of delivery.

**1.03 Delivery Schedule.** As soon as practical after receipt of a written order, Qume will notify Buyer in writing whether Buyer's order can be accepted (i.e., whether the ordered Spares are currently available) and, if accepted, of the date or dates on which delivery will be made.

**1.04 Change Orders.** Subject to the terms hereof, Buyer may, by written change orders, effect the following changes in outstanding orders for Spares:

(a) **Cancellation Charges.** Buyer and Qume hereby acknowledge that cancellation of any order or release hereunder will cause damages to Qume in an amount which cannot be readily determined. To avoid future disputes over the amount of such damages, Buyer and Qume agree that a cancellation charge determined in accordance with this provision represents a reasonable estimate of the damages to Qume which would result from such cancellation. The cancellation charge shall be that percentage of the invoice prices for the cancelled Spares corresponding to the number of days prior to the original scheduled delivery date that Qume receives written notice of cancellation as set forth below.

|                   |     |
|-------------------|-----|
| more than 30 days | 10% |
| 30 days or less   | 15% |

Cancellation charges shall be invoiced on terms of payment of net ten (10) days. Any invoiced amount which is not paid when due will bear interest at a rate of eighteen percent (18%) per annum, to the extent permitted by applicable law.

(b) **Rescheduling.** Buyer may extend the delivery date by written notice which specifies a new delivery date and which is received by Qume at least 60 days prior to the original delivery date for such Spares; provided, however, the original delivery date may not be extended for more than 30 days pursuant to this subparagraph, and only one such extension may be made.

#### 2. PRICE.

Qume agrees to sell Buyer, during the term hereof, the Spares listed in Addendum A of this Agreement pursuant to the discounts and conditions described in Exhibit A. Prices for Spares shall be in accordance with Qume's published price lists as may be made available from time to time hereafter, and such prices are subject to change without notice.

#### 3. TERMS AND CONDITIONS.

**3.01 Shipment.** Delivery will be F.O.B. Qume's plant, freight collect. All shipments hereunder will be made in Qume's standard shipping cartons to Buyer at Buyer's address set forth above. Unless otherwise instructed in writing by Buyer, Qume will select the carrier. Title and risk of loss to the Spares purchased under this Agreement shall pass to Buyer upon delivery thereof to the carrier at Qume's plant.

**3.02 Delivery Location.** Qume will ship only to Buyer's service or warehouse locations. Qume will not "drop ship" to any other location.

**3.03 Payment.** Where open account credit is established and maintained to the satisfaction of Qume, payment terms shall be net thirty (30) days after date of shipment by Qume. Any invoiced amount which is not paid when due will bear interest at the rate of eighteen percent (18%) per annum, to the extent permitted by applicable law.

**3.04 Taxes.** Buyer shall bear all applicable federal, state, municipal and other government taxes (such as sales, VAT, use or similar taxes); all customs duties, imposts, and similar charges; and all personal property taxes assessable on the Spares after delivery to the carrier at Qume's plant.

**3.05 Warranty.** Qume warrants to Buyer for a period of ninety (90) days from the date of original shipment to Buyer that Spares delivered by Qume pursuant to this Agreement shall be free from defects in material and workmanship. Qume's obligation under this warranty is limited to replacing or repairing, at its option, at its designated site, only serial numbered major assemblies that within the warranty period are returned to Qume in Qume's shipping carton under a Material Return Authorization (MRA) number and that are found by Qume to be defective in proper usage. Qume reserves the right to refuse to accept delivery of any shipment containing any shipping cartons which do not have the MRA number displayed on the outside. Buyer shall prepay transportation charges back to Qume's designated site. If returned parts are repaired or replaced under terms of this warranty, Qume will prepay transportation charges back to Buyer at Buyer's address in the United States set forth above; otherwise, Buyer shall pay transportation charges in both directions.

THE FOREGOING WARRANTY IS IN LIEU OF ALL WARRANTIES.

## APPENDIX B

TIES, EITHER EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, AND OF ANY OTHER OBLIGATION ON THE PART OF QUME

**3.06 Limitation of Liability** Any provision herein to the contrary notwithstanding, in no event shall Qume be liable for indirect, incidental or consequential damages and in no event shall the liability of Qume arising in connection with any Spares sold hereunder (whether such liability arises from a claim based on contract, warranty, tort or otherwise) exceed the actual amount paid by Buyer to Qume for such Spares

#### 4. PATENT AND TRADEMARK INDEMNITY.

**4.01 Indemnity.** Qume, at its own expense, will defend any suit or proceeding against Buyer in a court of the United States for the direct infringement of United States patents and trademarks by the Spares purchased from Qume hereunder. Qume shall pay all damages and costs finally awarded against Buyer because of direct infringement provided however that Qume shall not be obligated to defend or be liable for costs or damages awarded in any suit or proceeding for infringement of patents by any other product or products, or any completed equipment, assembly, combination, method or process, in which, or in the manufacture or testing of which, any of the Spares purchased from Qume may be used (notwithstanding that such Spares purchased from Qume may have been designed only for use in or may only be useful in such other patented products or such patented equipment, assembly, combination, method, or process, or in the manufacture or testing thereof, and that such Spares purchased from Qume may have been purchased and sold for such use). Qume's liability hereunder shall not exceed the purchase price paid by Buyer for the infringing Spares, and Qume shall not be liable for any collateral, incidental or consequential damages awarded against Buyer

**4.02 Notice** Qume's duties are conditioned upon Buyer giving Qume prompt written notice of the commencement of any suit or proceeding or any claim of infringement and furnishing to Qume a copy of each communication relating to the alleged infringement and giving to Qume all authority (including the right to exclusive control of the defense of any such suit or proceeding), information and assistance (at Qume's expense) necessary to defend or settle such suit or proceeding. Qume shall not be bound by any settlement made without Qume's prior written consent.

**4.03 Injunction.** In the event that the Spares purchased from Qume are held in such suit or proceeding to constitute infringement and the use of such Spares is enjoined, Qume shall, at its option and expense, either procure for Buyer the right to continue using such Spares or modify them (providing modification does not materially affect performance) so that they become noninfringing or remove such Spares and grant Buyer a credit thereon as depreciated and accept their return. If infringement is alleged prior to completion of delivery of the Spares, Qume may decline to make further shipments without being in breach of any agreement.

**4.04 Buyer Specifications** Qume shall not be obligated to defend any suit or proceeding, or be liable for any costs or damages, if the infringement arises out of compliance with Buyer specifications or any marking or branding applied at the request of Buyer. Buyer agrees, at its expense, to defend and to pay costs and damages finally awarded in any suit or proceeding against Qume based on any such infringement, provided that Buyer is promptly notified by Qume in writing of the commencement or threat of such suit or proceeding or claim of infringement and is given all authority (including the right to exclusive control of the defense of any such suit or proceeding), information and assistance (at Buyer's expense) necessary to defend or settle such suit or proceeding.

**4.05 Infringement After Notice.** Qume's obligations hereunder shall not apply to any alleged infringement occurring after Buyer has received notice of such alleged infringement unless Qume thereafter gives to Buyer written consent for such continuing alleged infringement.

#### 5. TERM AND TERMINATION.

**5.01 Term.** The term of this Agreement shall be from the date hereof until terminated by either party

**5.02 Termination** Either party may terminate this Agreement by providing written notice of termination to the other party ninety (90) days prior to the date of termination. All orders in effect on the date of termination of this Agreement shall be cancelled as of such date

**5.03 Termination for Default.** Failure to make any payment when due in accordance with the terms of this Agreement shall constitute a default. Any other material breach of this Agreement by either party shall constitute a default if not cured within forty-five (45) days after written notice of such breach is given. Upon default by either party, the other party may terminate this Agreement on ten (10) days' written notice

**5.04 Termination for Insolvency.** Either party may terminate this Agreement on thirty (30) days' written notice if the other party is insolvent or has made any assignment by operation of law or otherwise of this Agreement or any of its rights hereunder for the benefit of creditors.

**5.05 Other Remedies.** Termination under Section 5.03 and 5.04 shall not limit the terminating party's rights and remedies otherwise available in law or in equity, including but not limited to the right to recover damages

#### 6. MISCELLANEOUS.

**6.01 Assignment.** The rights of Buyer under this Agreement may not be assigned in whole or in part by operation of law or otherwise without the prior express written consent of Qume and any attempted assignment of any rights, duties or obligations hereunder without such consent shall be void

**6.02 Force Majeure.** If the performance of this Agreement or of any obligation hereunder (except payment of monies due) is prevented, restricted or interfered with by reason of fire or other casualty or accident; strikes or labor disputes; inability to procure raw materials, power or supplies; war or other violence; any law, order, proclamation, regulation, ordinance demand or requirement of any governmental agency or intergovernmental body; or any other act or condition whatsoever beyond the reasonable control of the parties thereto, the party so affected, upon giving notice to the other party, shall be excluded from such performance to the extent of such prevention, or restriction or interference

**6.03 Changes.** Qume reserves the right to make design modifications in the Spares at any time but shall not be obligated to implement such modifications in Spares which have previously been delivered.

**6.04 Entire Agreement.** This Agreement supersedes and cancels all prior agreements relating to the subject hereof, if any, between the parties and shall not be amended, altered or changed except by written agreement signed by both parties.

**6.05 Titles and Subtitles.** The titles and subtitles used in this Agreement are for convenience only and are not a part of this Agreement and do not in any way limit or amplify the terms and provisions of this Agreement.

**6.06 Notices.** All notices and other communications hereunder shall be in writing and shall be sent by first class or registered mail, postage prepaid, to the parties hereto at their respective addresses specified herein, subject to the right of either party to change its address by written notice.

**6.07 Use of Standard Purchase Order** Although Buyer may use its standard purchase order form for orders, change orders or other notices provided for hereunder, said orders, change orders or notices will be governed by the terms and conditions of this Agreement, and any term or condition set forth in any such standard form which is inconsistent with or in addition to the terms and conditions of this Agreement shall have no force or effect.

## APPENDIX B

**6.08 Governing Law.** This Agreement shall be governed in all respects by the laws of the State of California and both parties hereby consent to the non-exclusive jurisdiction of the courts of California over all disputes arising hereunder.

**6.09 No Waiver.** Failure on any occasion by either party to enforce any term of this Agreement shall not prevent enforcement on any other occasion.

**6.10 Expenses of Suit.** If suit is commenced to enforce the performance of any part of this Agreement, including without limitation any order or release made hereunder, the prevailing

party shall be paid by the other party reasonable attorneys' fees and expenses.

**6.11 Counterparts.** This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

**6.12 Confidentiality.** This Agreement and/or its contents is not to be publicly announced without prior written consent from Buyer and Qume.

IN WITNESS WHEREOF, the parties have executed this Agreement as of the day and year first above written.
